

Ovation M8 Slide Out

The Avan Ovation series has quickly established itself as the benchmark in Australian built Motorhomes. The NEW Ovation M8 Slide-out has set a new standard that will be the envy of the market. Incorporating a revolutionary space maximising interior design the M8 slide-out will surprise the most discerning traveler with its abundance of living area.

The electric slide-out double bed in the rear and the option of an additional double bed in the alcove ensures that the M8 can easily accommodate four adults on the longest of adventures. Rear clearance is not an issue as the slide-out design offers up to 300mm less overhang than in its predecessor the Ovation M6.

A full en-suite including separate shower, vanity and toilet heads the list of the M8's luxurious features. A large galley style kitchen with 3 burner cook top, oven, deep bowl sink and range-hood ensure all cooking requirements are catered for. Roof mounted air-conditioning guarantees you travel in comfort and the flat screen LCD TV on wall-mounted swivel bracket will keep you entertained. The M8 Slide-out is a must see prior to any Motorhome purchase.

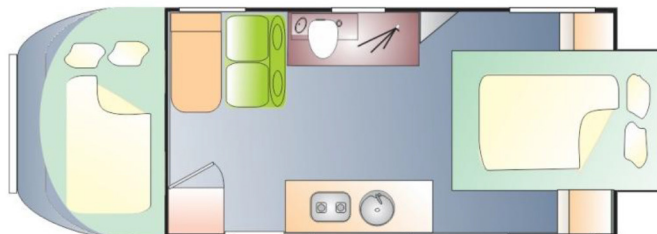

Ovation M8 Slide Out
